

Education market: Total Power Protection Solutions

| Laboratories | Campus IT | Facilities infrastructure |
|---------------------------------------|--|---------------------------|
| 1 Student lab / advanced research lab | 2 IT / data center / telecommunication | 6 Campus security |
| | 3 Business office | 7 Network office |
| | 4 Student center and Store | 8 Campus clinic |
| | 5 Computer lab | 9 Maintenance |

Chloride offers a full range of products for critical power infrastructure for today's educational market. Solutions range from reliable, convenient Desk Power™ UPS to a full range of products to support the most demanding IT and scientific requirements. Additionally, Chloride can provide connectivity solutions to monitor condition and status of critical power infrastructure in the data center, server rooms, and wiring closets throughout the campus.

| Products for Campuses | Range | Advanced research lab | Student lab or dorm room computers | IT / data center / telecommunications | Business office | Student center and store | Computer lab | Campus security | Network office | Campus clinic | Maintenance |
