

# The ONEAC Advantage

## ONEAC Invests Our Resources in Your Success

■ ONEAC AC Power Solution for  
*Business-Critical Continuity™*

For over 35 years ONEAC has invested in designing superior power protection products. But even more, we invest our resources to benefit you and your customers. From design to training to service, ONEAC is available with what you need to succeed.

### ONEAC is Committed to You

**Direct phone support** available to you when you need it at no additional cost.

**Customer power training** helps you understand the invisible threats of power disturbances and how to create solutions to manage your risk.

**ONEAC product training** explains the ONEAC product and overviews each product's unique advantage in the marketplace, giving you the information you need to make a difference.

**Proof of performance.** ONEAC field trials support our claims so you can be confident in each ONEAC solution.

**Pre-sales application engineering** connects you with experienced, trained engineers with the expertise to assure the right product is configured for each application.

### ONEAC is Committed to Your Customer

**Up front power evaluations with easy to understand reports** offer you the chance to see what an electrician cannot. Noise, transients, spikes, all have damaging effects on your sensitive and critical electrical equipment. The ONEAC power evaluation gives you insight to the solutions that fits best.

**Live scope demonstrations** uncover in real time the damaging affects of power disturbances on power lines and show the immediate effects of power conditioning.

**After-sale support team** is available 24 hours a day, 7 days a week to provide technical assistance, maintenance, or service, if required, to ensure life-long and reliable operation of the ONEAC products.

**ONEAC demo units** show the firsthand results you can expect from an ONEAC product.
