

Secure power for Tianjin ethylene project

Case study:

- **Site:**
TIANJIN
- **Application:**
Petrochemicals
- **Chloride products used:**
 - Excor Apody's UPS

- **Country:** China

The project:

- Client: Sinopec
- 1.2 million tons/year ethylene plant
- End of civil works expected end 2008

Chloride's scope of supply

- 45 x Dual UPS systems with 220Vdc bus
- Reserve cubicles, output distribution board, battery and battery cubicle provided by Beijing Talented Power, our local distributor in China

- Secure power for process control and instrumentation of new ethylene cracker
- Dual systems
- 220V DC bus mandatory
- Capability to service and maintain locally through distributor.
